Access Control Computer System with EntraPASS Special Edition

This robust software comes pre-loaded on a powerful computer which has been cleaned and engineered¹ to receive your secure database with minimal effort.

EntraPass Special Edition V6 is a powerful network and web-ready security management software capable of meeting the needs of growing businesses, allowing you to manage one building or access multiple remote sites from a network.

How it Works

EntraPass Special Edition is a single workstation security software. It controls up to 128 doors with KT-100/KT-300 and up to 256 doors with KT-400 door controllers. The software is comprehensive and menu-driven. It is easy to learn and operate. Administrators can define or modify parameters such as schedules or access levels, generate reports and activate controlled devices (i.e. locking/unlocking doors, or activating relays for lighting or air conditioning).

EntraPass Special Edition can manage up to 64 sites consisting of KT-100, KT-200, KT-300 and KT-400 controllers (up to 64 controllers).
