

HWRGM1A

Hi-Gain Wireless-108G MIMO Router

with AMP Technology

Designed For Mac and PC Users

PACKAGE CONTENTS:

- One Hi-Gain™ Wireless-108G MIMO Router with AMP Technology
- One Power Adapter
- One CD, includes Mac and PC Setup Wizard and Users Manual
- One RJ-45 Ethernet Cable
- Easy to follow Quick Installation Guide

Hi-Gain Wireless-108G MIMO Router with AMP Technology

The TURNSTILES HWRGM1A Hi-Gain Wireless-108G MIMO Router with AMP Technology is the perfect solution for sharing a single broadband internet connection between the computers in your home or office. Using state-of-the-art "AMP"lified MIMO wireless technology, TURNSTILES delivers the fastest and furthest possible wireless networking experience. At a blazing 108Mbps, transferring files, audio and even video has never been more enjoyable. Even in large homes and offices, wireless dead-spots are easily eliminated with the Wi-Fi range extending capabilities of the HWRGM1A (Up to 3 times the distance of the Airport Extreme Base Station).* Along with wireless connectivity, the HWRGM1A has 4 wired 100Mbps Ethernet ports for connecting your computers that do not have wireless access.

Installation of the HWRGM1A is very simple. In a matter of a few clicks with your mouse, the new Mac or PC based Setup Wizard will automatically configure your Wireless Router for internet access. The TURNSTILES Hi-Gain wireless MIMO Router also offers the latest in wireless security, ensuring that your files and network are safe from outside intruders.

Features

- Great for sharing Music, Movies and Data Files between your home computers
- Works great with Airport Extreme and Airport Wireless Cards
- Ultra Fast Data Transfer speeds and Superior Wireless Range using Hi-Gain AMP Technology
- Easy Installation Using the Mac and PC Setup Wizard
- Instantly Share your Internet Access

System Requirements:

- Computer (Mac or PC) with 200MHz or faster processor with CD-Rom
- Internet Web Browser (Internet Explorer 4.0, Safari, etc...)
- 802.11b, 802.11g, Airport Card, Airport Extreme Card or wired network adapter with TCP/IP Protocol Installed
- Compatible Broadband Internet Service

HWRGM1A Hi-Gain Wireless-108G MIMO Router with AMP Technology

ORDERING INFORMATION:

MAC Wireless Network Adapters (108Mbps Capable)
HWU54DMA - Hi-Gain Mini Wireless-G USB Adapter
HWC54DA - Hi-Gain Wireless-G Cardbus Card

PC Wireless Network Adapters (108Mbps Capable)
HWU54DM - Hi-Gain Mini Wireless-G USB Adapter
HWC54D - Hi-Gain Wireless-G Cardbus Card

SPECIFICATIONS:

Network Specifications:

- IEEE 802.11b/g
- IEEE 802.11e WMM

Data Rate

- 54/48/36/24/18/12/11/9/6/5.5/2/1 Mbps fallback
- Turbo Mode (works with 108Mbps capable Hawking wireless network adapters)

Operating Frequency

- 2.4~2.4835 Ghz

Security

- 64/128/256-bit WEP Data Encryption, WPA (TKIP with IEEE 802.1x), WPA2 and AES

Antenna

- 3x 2dBi Detachable RP-SMA Antennas
- Upgradeable to Hi-Gain Hawking Antennas

Transmit Power

- 18dBm +/- 2dBm

Router Features

- NAT/NAPT IP Sharing
- Firewall (Anti-DoS, DMZ, Virtual Server)
- Port Triggering
- VPN Pass Through (IPSec/PPTP)
- Remote Configuration (Web-Interface)
- Security Logs, System Status, Firmware Upg
- PPPoE, Static, PPTP, DHCP WAN Supported
- DHCP Server
- Quality of Service

Temperature

- 32~131°F (0 ~55°C)

Humidity

- Max. 90% (NonCondensing)

Certification

- FCC , CE, IC

READY, NETWORK & GO!

It's easy to install, it's easy to use! Everyone can do it.

Step 1 - Connect the Hardware

Connect the router to your broadband modem and power on.

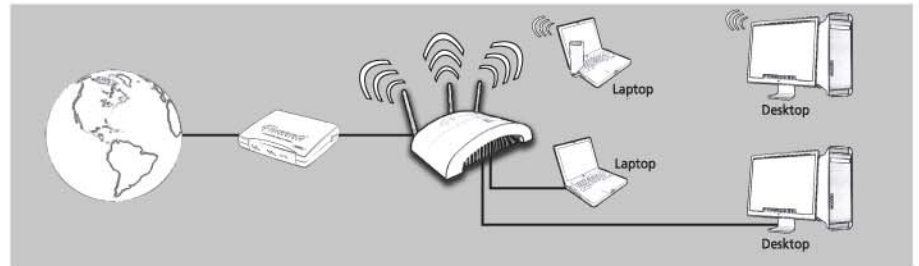

Step 2 - Insert the Setup CD

Insert the included setup CD into your CD-Rom drive and run through the setup options.

Step 3 - Surf the Web Wirelessly

Place your router in your desired location and enjoy wireless internet access throughout your home or office.
